In Summer 2018, Strange Fascination are back touring their family-friendly open air production of the much-loved classic 'Journey to the Centre of the Earth'.

Join Professor Lindenbrock and friends as they follow an ancient map that leads them down a volcano and into the very centre of the earth! Discover zany characters, astonishing treasures, and even some prehistoric surprises during our adventurous production! Expect inventive props, puppets, and all the humour and beauty that Strange Fascination have come to be known for.

Review for Alice In Wonderland -

“delightfully colourful props, puppets and set... The ensemble have built a lively show which captivates the watchers young and old... Pack a picnic and a camping chair or two and take your kids to see this lively show for a delightful afternoon”

-Julian Swainson, The Norwich Eye
